## **List of Medical Resources**

**June 2008**

Medical treatment in Hungary is adequate, but hospital facilities and nursing support are not comparable to those in the United States. Physicians are generally well trained, but there is a lack of adequate emergency services. Some doctors, particularly in Budapest, speak English. Doctors and hospitals usually expect immediate cash payment for health services.

Emergency phone numbers:

Ambulance: 104 or 350-0388

Police: 107

Fire: 105

24-hour English speaker: 112

English is usually spoken at the emergency numbers listed above. In case English is not spoken, dial 112.

Information on vaccinations and other health precautions, such as safe food and water precautions and insect bite protection, may be obtained from the Centers for Disease Control and Prevention's hotline for international travelers at 1-877-FYI-TRIP (1-877-394-8747) or via the CDC's web site at <http://wwwn.cdc.gov/travel/default.aspx>. For information about outbreaks of infectious diseases abroad consult the World Health Organization's (WHO) web site at <http://www.who.int/en>. Further health information for travelers is available at <http://www.who.int/ith>.

The Department of State strongly urges Americans to consult with their medical insurance company prior to traveling abroad to confirm whether their policy applies overseas and whether it will cover emergency expenses such as a medical evacuation.

The US Embassy Budapest, Hungary assumes no responsibility or liability for the professional ability, reputation or the quality of services provided by the medical professionals or medical facilities whose names appear on the following lists. Names are listed according to specialty and alphabetically and the order in which they appear has no other significance. Professional credentials and areas of expertise are provided directly by the medical professional or medical facility.
